Business Programs at the University of San Diego

Advance Your Career with Professional and Continuing Education from USD

Change is the only constant in today's business climate. The University of San Diego's Professional and Continuing Education business certificate programs provide you with the insight and tools needed to sustain an edge in this highly competitive industry. Through our cutting-edge curriculum, students can choose business courses that focus on all facets of this career field, from entrepreneurship and business development to marketing and management.

PCE's Business Programs offer certificate programs, stand-alone courses, and workshops that seek to enhance students' professional development and help them become leaders in their chosen career.

Who Should Attend?

The business certificate programs are well suited for anyone who wishes to pursue a business career, including recent graduates, new and seasoned professionals, or even those looking to make a career change. Professionals seeking to sharpen their skills in the areas of project management, digital marketing, leadership, nonprofit management, and commercial real estate begin this coursework to advance their careers and make new network contacts.

Benefits of USD's Business Programs

Some of the benefits students can expect from our many online business programs include:

- Document your academic achievement in an area of specialized expertise to assist you in advancing your career and possibly moving up the salary schedule.
- Complete your certificate within 10 months, less time than it typically takes to earn a graduate degree.
- Develop and update your professional skills and knowledge to make you more effective in your field with in-depth learning.
- Continue your education at a nationally ranked university with a cutting-edge curriculum and proven programs.
- Learn from expert faculty members who are also experienced practitioners.
- Benefit from small class sizes that offer personalized and superior support to enhance learning.
- Sign up for convenient and flexible program schedules, with no application requirement.

The cannabis industry is complex and ever-changing, making legal compliance a significant challenge for cannabis businesses of all sizes.

CERTIFICATES AND SERIES

With the surge in high-tech growth, local employers are scrambling to find enough tech talent. This is reflected in impressive salary numbers—in San Diego, the average software developer’s salary is 27% higher than the city’s average salary. This is a 27-week part-time or a 12-week full-time bootcamp for those interested in a career in coding. Add software developer skills to your resume today through University of San Diego Coding Bootcamp, an immersive program powered by Fullstack Academy offered in both full-time and part-time options. Curriculum is broken into three phases and is built to be hands-on and give you experience working with other developers. By the time you graduate, you’ll have used what you learned to produce a portfolio of projects you can show employers.

In any building project, efficient construction management serves as an important foundation for success. That’s why experienced construction project managers are always in demand and many are paid six-figure salaries for their talents and hard work. You’ll get a comprehensive overview of construction project management principles and best practices in this five-course, online certificate program that expands your knowledge and skill set, and looks great on your resume.

Gain the skills employers are looking for in automation, infrastructure, and Python. Students will be prepared for the AWS Certified Developer – Associate Certification, the AWS Certified Solutions Architect – Associate Certification, and the AWS Certified SysOps Administrator – Associate Certification.

Product Management is a growing field which pays very well and has a career path that creates a lot of room for individuals to grow and advance. The Product Management Bootcamp is an immersive, collaborative, cohort-based live-online bootcamp. The 24-week program consists of five parts: one 12-week essentials section, and four 3-week specialized sections. Over the first 12 weeks, students will build essential knowledge and skills grounded in the product life-cycle, market analysis, product planning, product analytics, creating a product strategy, working with and hiring teams, business fundamentals, and getting work as a product manager. Each of the five sections in the bootcamp culminates in solving an authentic problem that a real product manager working in an existing company faces. Upon completion, students will leave with a portfolio of work showcasing their product management abilities.

Join Our Team of Accomplished Practitioner Instructors!

DO YOU WANT TO TEACH AND DEVELOP KNOWLEDGE AND SKILLS IN OTHERS?

Professional and Continuing Education (PCE) is continually growing, expanding, and updating a wide variety of courses and programs of study. Last year alone, there were over 35,000 enrollments in over 400 courses. Many of those courses were new.

As part of a top ranked university, PCE hires instructors who are experienced practitioners that can develop and/or teach in a stimulating and participative learning environment for students. Being an instructor is a rewarding role for anyone that has knowledge and practical real-world experience. If you are currently an instructor or ready to become one as an expert in your field, contact us.
